Air Freshener Training Manual

Product Overview

Our premium air fresheners are designed to create inviting environments in residential, commercial, and public spaces. Each fragrance has been carefully developed to suit specific areas.

Available Fragrances and Recommended Areas

Fragrance	Recommended Use Area	Notes
Coastal Green	Bathroom	Fresh, clean scent; ideal for small enclosed spaces.
Oak Blue	Bathroom	Calming, fresh scent; suitable for both home and office bathrooms.
Pop My Cherry	Kitchen & Entertainment Areas	Sweet and lively; perfect for kitchens, dining, and lounge areas.

Note: All fragrances are available as concentrates and can be used in professional diffusers.

How to Use Your Air Freshener

1. Direct Spray

- Shake well before use.
- Spray 2–3 short bursts into the air, away from faces and fabrics.
- Reapply as needed, depending on room size and activity.

2. Diffuser Use (Concentrates)

Materials Needed:

- Glass diffuser bottle
- Wooden reeds
- Ethanol (96% or denatured)
- Fragrance concentrate

Recommended Ratio:

- Fragrance Oil: 10–15% of total solution
- Ethanol: 85–90% of total solution

Step-by-Step Guide:

1. Prepare the Mixture

- Measure the ethanol into a clean container.
- Gradually add the fragrance oil while stirring gently.
- Let the mixture sit for 10–15 minutes to fully integrate.

2. Pour Into Diffuser Bottle

- Carefully transfer the mixture into your glass diffuser bottle, leaving some space at the top to insert the reeds.

3. Insert Reeds

- Place the wooden reeds into the bottle.
- Allow them to soak for a few hours.

4. Flip Reeds

- Flip the reeds upside down after the first few hours to help the scent diffuse evenly.
- Flip the reeds 1–2 times per week for consistent fragrance.

5. Adjust Strength

- For stronger scent, add more fragrance oil (up to 15%).
- For lighter scent, reduce fragrance oil or flip reeds less frequently.

Tip: Avoid placing the diffuser in direct sunlight or near heat sources to prevent rapid evaporation.

Safety Guidelines

- Keep out of reach of children and pets.
- Avoid contact with eyes and skin. In case of contact, rinse thoroughly with water.
- Do not ingest.
- Store concentrates in a cool, dry place, away from direct sunlight.
- Use ethanol-based solutions in well-ventilated areas.

Maintenance Tips

- Clean diffuser regularly to prevent build-up.
- Replace diffuser reeds or pads every 2–4 weeks for optimal performance.
- For large spaces, combine spray use with diffuser to maintain consistent scent levels.
